Dear all

Beside the fact that I do not dismiss necessarily the eventual (that I cannot prove) impact of being raised as belonging to a "blood determined" religious group with ethnic and racist background and imperialist and genocidal in the context of Palestine

[and dismissing the level of the responses in this list that grant supremacy of the individual in the choices of his life (ref to Harsh) ...or the trashy commentaries (ref to Ran) or the generic comment that Sissi politics should be criticized, which is not the issue of this conversation (ref to Sukai),

I assume the only answer is in Sissi actions (his politics in terms of ideology can be next discussed) even only from when he become the "saver of the country".

Closure of Gaza and destruction of life lines for supplies = total dependence from Israel of the Gaza Strip, for health, food, supplies, circulation. Inclusive of a zone of full visibility and of no passage all around on the border and block of circulation of Egyptians in the Sinai. An closure of the passenger border lasting stretches of 30-40 days at each time, beside the routine imprisonment of any less than 40 man that would manage to go across to reach abroad, from border to airport).

Out lawing of all dissidents of any relevance, Muslim and not, using constrictive, murderous and illegal and illegitimate extreme use of force and of new and old laws (this too needs much more conversations).

Increase in the military expenses. Buying and obtaining weaponry for internal control (regardless of any verbal statement) from US and Saudi Arabia (et al), thus from the best and exclusive allies of Israel and of tools for intelligence directly from Israeli.

Lack of any initiative to approach the issues of economic and social needs of the country, including disregard for workers, professionals requests, let alone the disinterest towards the large majority of people in Egypt with no revenues, work or access to any service, and for the large sectors of national revenues of agriculture and tourism (One could question where this government is getting the money from, an other good topic for further studies and conversation).

What is the contest in which this is happening? Successful destruction/ impoverishment, depopulation of the other two richest and most solid North African countries, Syria and Lybia and consequent internal fragmentation and impossible load for the countries that receive the refugees. A price that will be paid from the people of these countries for many years ahead. Not to forget Iraq.

But Egypt is too populated for such interventions and anyhow comes from a Mubarak era, which is not ended because the same people are still in the same positions of power most all over (see the judiciary, the military and industrial complex), and which has rooted a corruption/interest system that can still be a pillar of power. So it would be sensible to have a strategy to keep it subdued by different means and use the baby bottle to feed the regime, excluding anybody that may interfere because independent from that life line, and binding it to the chariot.

There is not a single act of Sisi that disclaims the claim of him being an Israeli partner (in whatever uniform or plain clothes), regardless if he is led by his "organic belonging" to Mossad or Jewish religion, which may be need additional proofs that may come only with ex-post explanations and history.

It is a matter of facts that he is doing exactly as if he was belonging there, coherently, perseveringly and with insistence and with the applause of the parties in question, primarily US, Israel and S.A. & c.. This applause in itself is translated in facts: contracts, supply of weapons for internal deterrence, special investments from these sides (regardless of democracy and human rights talk).

I guess this is the answer to the doubts.

We can go on deepening the conversation on the other issues.

stay well

Worlds in movement, worlds of movement...

'Egyptian ruler General Abd al-Fattah al-Sisi is a Jew'

Is this really true ?

I am forwarding this post not as a comment on whether the ruler of Egypt should or should not be of a religion other than Islam, but because of what seem immediately to me to be the enormous implications of this, for Egypt and for the region, and for the movements for democracy and justice in the region. Not to speak of the allegation here that he is a Mossad agent.

Can someone comment on this, and add some light ?

Israeli ambassador calls Al-Sisi a "national hero for all Jews"

The Israeli ambassador in Cairo has told a minister in the interim government that the people of Israel look upon General Abdel-Fattah Al-Sisi as a "national hero". According to Israel Radio, the ambassador rang Agriculture Minister Aytan Abu-Haidid to congratulate him on his new post and said, "Al-Sisi is not a national hero for Egypt, but for all Jews in Israel and around the globe."

Israel is looking forward to the launch of new relationships with Egypt, said Yaakov Amital, as well as joint efforts in the war on terror. His mention of "terror" is understood to be an oblique reference to President Mohamed Morsi's supporters protesting against the coup which removed him from office.

The Greater Israel Project – a long-standing Zionist scheme to steal all the land between the Nile and the Euphrates – is halfway there.

They just stole the Nile.

The problem is not that Egypt's new thug-in-chief, General Abd al-Fattah al-Sisi, is a Jew. (His mother, Malukah Titani, is a Moroccan Jew from Asefi, which makes al-Sisi a Jew and an automatic citizen of Israel.)

If the Egyptian people want to elect a Jew president in a free and fair election – like they elected the Muslim Brotherhood (MB) to the Lower House with 73% of the vote, the Upper House with 80% of the vote, the presidency with 52% of the vote, and approved the MB Constitution with 64% of the vote – that's fine with me.

The problem is that al-Sisi has concealed his Jewish identity and Israeli connections from the Egyptian people...and destroyed their nascent democracy through deception and mass murder.

An even bigger problem: al-Sisi is almost certainly a Mossad agent. That means al-Sisi's Egypt is not just a brutal, banana-republic-style dictatorship. It is Israeli-occupied territory: The newest and largest province of ever-expanding Greater Israel.

No wonder the Israeli ambassador called al-Sisi "a national hero for all Jews."

Al-Sisi's uncle, Uri Sibagh (sometimes spelled as Sabbagh) served in the Jewish Defense League (Hamagein) from 1948 to 1950, made his aliyah

to Israel, and became a bigwig in Ben Gurion's political party, serving as the secretary of the Israeli Labor Party in Beersheba from 1968 to 1981. Uri's sister – al-Sisi's mother – presumably emigrated to Egypt on a mission from the Mossad. That mission culminated when the Mossad overthrew President Morsi and installed its agent al-Sisi in the coup d'état of July 3rd, 2013.

The implication: Al-Sisi has been a lifelong Mossad agent. His mission: infiltrate the highest levels of power in an Arab Muslim country. Al-Sisi is today's version of Elie Cohen, who infiltrated the highest levels of power in Syria under the name Kamal Amin Thabet before he was exposed and hanged in the public square in Damascus.

George H.W. Bush's famous line, "If the people knew the truth, they would chase us down the street and lynch us" applies – in spades – to al-Sisi.

It has been widely reported in the mainstream media, as well as by more reliable sources, that al-Sisi has long served as the Egyptian military's liason with Israel. During the coup d'état of July 3rd, al-Sisi was in permanent liason by telephone with the Israeli and American militaries. (Israel promised its full support, and guaranteed that US aid would not be cut off, while the US waffled.)

The Egyptian coup, especially its propaganda component, had all the earmarks of an Israeli black op. A massively financed campaign run through Egypt's Israeli-linked mainstream media (yes, the same folks own big media there as here) repeatedly compared President Morsi to Adolf Hitler! The fact that "Morsi = Hitler" was the number one talking point of the forces behind the coup reveals that those forces were Zionists, not Egyptians. Apparently the Zionists couldn't stop themselves from making reflexive Dr. Strangelove-style anti-Hitler salutes while they were orchestrating the al-Sisi coup – thereby giving their game away.

Since the coup, Israel has been lavishing praise, money, and support on al-Sisi. Mossad agent al-Sisi has virtually declared war on Palestine by going all-out to close the Gaza border tunnels that keep the people of Gaza alive. Meanwhile, al-Sisi has taken billions of dollars from the Rothschild puppets and likely donmeh crypto-Jews who call themselves the "House of Saud."

Obviously the Zionist-dominated West and its Middle Eastern puppets will not allow Muslims to elect relatively honest leaders in free elections.

Instead, they will use deception and violence to pursue their schemes for regional and global domination.

The Egyptian people – who elected the Muslim Brotherhood by a greater landslide than any US political party has won in all of American history – need a real Islamic revolution to create a genuine democracy. Without it, Egypt will indefinitely remain “a boot stamping on a human face – forever”...and a permanent province of Greater Israel, ruled by a Jewish-Zionist thug who has appointed himself pharaoh, while hiding his real background and loyalties.

The two men agreed on the resumption of the work of the Supreme Egyptian-Israeli Agricultural Committee. Meetings of the committee are held alternately in Cairo and Tel Aviv every six months. They also agreed to reactivate the Egyptian branch of the Future Leaders Network, which includes Egyptian, Jordanian, Palestinian and Israeli youths.
