

## Swedish Government Response

April 2, 2008

Dear Mr. Fink,

I have now consulted with the MFA in Stockholm, and have the pleasure of conveying the following.

Sweden wishes to see a Review Conference that is as operational and concrete as possible, keeping a clear focus on how States have implemented the recommendations of the Durban Declaration and Plan of Action, agreed in 2001.

The Swedish Government regards any expression or manifestation of anti-semitism as totally unacceptable. This position will be reflected in the Government's preparations for the Review Conference at the national level.

Best regards,  
Annika Ben David
