

Foreign Government Funding for Israeli NGOs: Selections 2006-2009

European governments and the European Union provide over €35 million annually to NGOs that operate in Israel and the Palestinian Authority. This chart represents a selection of this funding, focusing on Israeli NGOs that receive significant foreign support – over NIS 68 million since 2006.

The amounts listed are based on publically available documents from NGOs, governments, and Israel's Registry of Non-profits. Due to a lack of transparency, the figures should be considered minimum amounts.

Making NGOs Accountable

*NGOs sometimes acknowledge the financial support of a foreign government, or a government will mention funding a particular NGO, without specifying how much money is involved. This is indicated on the chart as "amount unknown."
