The insanity of what it means to take advantage of a situation and to lose your humanity in the midst of a global crisis: In a time of a complete lockdown from the outside and even a self-imposed curfew in #Bethlehem where fear and panic are growing; the #Israeli occupation army came into Bethlehem late last night dressed in their #coronavirus protective gear and arrested three young #Palestinians from their home. [There are viruses that kill humans and ones that kill humanity.](#)

“...there is **another virus** that has existed in this world and has been **slowly incubating and spreading** itself in the hearts and minds of many. The virus that is at the **core of all our epidemics and illnesses**,

.....

...It is the virus that might not kill us directly, but **takes over our minds and makes us kill each other.**

It makes me see **my religion and my God as better than yours, my race as purer than yours, my gender as superior to yours, and therefore justifies my violence towards you.**

Zochrot: “historical medical colonial measures”

Zochrot published an article on COVID-19 in times of settler colonialism

“Israel [is] a settler colonial society.”

Compares Israel to various historical colonialist enterprises,

to “Europe unwittingly exported smallpox and measles to the ‘New World’ and Africa via the slave trade, later adding malaria and yellow fever...”

... It is telling that the **blockade** and closing of checkpoints in Bethlehem was **not followed** by similar measures **in Tel Aviv** or other Israeli cities after similar numbers of patients were diagnosed.”

Iranian virus strain different and targets Iranians

“After the death of Qassem Soleimani the world was expecting a nuclear war... but **Corona was stronger than a nuclear war**, ending the lives of thousands of Iranians, Chinese and Italians. This is an **American-Zionist war against religions and the economy**.

 Perhaps US President has a plan to face this health crisis related to Corona . We hope that this plan is not similar to the deal of the century that Trump brought to reinforce the spread of the israeli occupation virus in Palestine. #COVID48

“Occupation” exploits Corona against prisoners

"**occupation exploits the coronavirus**
in order **to implement its criminal plans against the Palestinians, especially the prisoners** who are now in great danger.

And **unleashing the settlers to attack the Palestinians**is evidence of this **fascist racist mentality** that will not hesitate to commit any crime against the Palestinians."

“Meetings are also how lawyers can learn about the conditions inside the prisons. “We have no idea what’s going on in the prisons. The situation is very worrying,” said [Sahar Francis](#), the director of Addameer,

“Now, we can’t hear their complaints about the state of health, mistreatment, or torture.”

B'Tselem and HRW Exploit COVID-19

COVID-19 in Gaza? After more than a decade of Israeli blockade - Israel will not be able to deflect the blame if this nightmare scenario turns into a reality that it created and made no effort to prevent.

The coronavirus will test the wisdom of Israel's policies for crippling the economy and health systems of Gaza and the West Bank. As the occupying power (for Gaza, too, given Israel's severe restrictions on movement), Israel is responsible for health care.

As Israel prepares for coronavirus in the Palestinian territories, Gaza raises dilem... Hamas is already enforcing the medical isolation for 1,400 Gazans suspected of

"... **while Israel's Jewish citizens enjoy** the land and its resources, **Palestinians are denied that same right** and barred from returning to their homeland.

In this time of pandemic and concern for the health of communities worldwide, it is time to address the **full consequences of the unjust partition of historic Palestine** — **and that includes Gaza.**"

THE COLM OF THE 🇮🇱 A MEDIC 🇵🇸 INFECT OF CORONAVIRUS TO PALESTINS 🇮🇱

Israel's regime sends a doctor, diagnosed with coronavirus, to a prison in the occupied territories to treat a sick Palestinian.

"The doctor examined one of the sick prisoners five days ago and then the infected Palestinian met with other detainees at Ashkelon prison", reported Wednesday the Chairman of the Committee on Palestinian Prisoners and Exprisoner s' Affairs, the division general Qadri Abu Bakr.

The Palestinian official held the Tel Aviv regime responsible for standing behind the dangers that threaten the lives of Palestinians imprisoned in Ashkelon.

He also said that Israeli prison authorities put the
